

Suma de todos los números

$$1 + 2 + 3 + 4 + 5 + \dots + n = \frac{n(n+1)}{2}$$

Handwritten calculations: $4 \times 5 = 10$, $1000 = 1001$, $1 + 2 + 3 + 4 = 10$, $3 + 4 = 7$, $6 + 4 = 10$.
